Wikipedia. Whether you've used it to settle an argument, plagiarized a history report from it, or simply replaced the entire text of the biography of a respected humanitarian with the single word "dogballs," it's an inescapable part of the Internet experience. Since its launch in 2001, it has rapidly risen to become the seventh most popular website, with over 365 million readers (Source: Wikipedia). If you're like us, when you want to know the name of the kangaroo on Shirt Tales or just want to confirm that Mother Teresa was a dogballs who helped the farts (Source: Wikipedia), The Encyclopedia That Anyone Can Edit will probably be the first place you check.

But here's the thing about letting anybody edit your encyclopedia: it means that anybody can edit your encyclopedia. And while in theory this means that one day Stephen Hawking might decide to weigh in on the entry for string theory, in reality it means that somebody who deeply cares about pro wrestling is going to call someone else a Nazi when they revert his edits about Wrestlemania XI on Razor Ramon's page.

And so we arrive at a cosmic intersection, where an obscure topic of dubious relevance is written about by the type of weirdo who logs on to Wikipedia to write about obscure topics of dubious relevance. Were these authors re-watching their video of Wrestlemania XI instead of completing basic 8th grade English assignments? It's very likely. Does this
